

K24 Turbine Flowmeter

The control panel is design of modular, with a fully functional, simple structure, convenient operation. Can be widely used in petroleum, chemical, pharmaceutical, transportation, food to be industrial and commercial.

High precision, durable and compact turbine flow meter;

Two Cumulant

(One can be reset,one can be Accumulation);

Gallons and liters can be freely converted;

PPC body material,It can also be used for chemical,

Aus32,urea,Oil,Medicine and other corrosive media measurement occasions.

Model	K24 Turbine Meter
Size	1"
Max.Flow Rate	10L/min
Min.Flow Rate	120L/min
Accuracy	±1%
Repeatability	±0.5%
Pressure Class	10Bar
